INTRODUCTION

The University Manuscripts Library is an institution under the University of Kerala for the preservation and publication of old palm leaf manuscripts of ancient works There is now a collection of more than 28,000 codices in Sanskrit, 5000 codices in Malayalam and 1500 codices in other languages in this Library Additions are made by collecting manuscripts from ancient families in different parts of Kerala

The original institution for this purpose was the Department for the publication of oriental manuscripts, popularly known as the Curator's Office That department was established by the erstwhile Government of Travancore in the year 1908 Under the patronage of the then Maharaja, Sri Mulam Tirunal, this department made considerable progress both in the matter of collection of manuscripts and publication By the year 1940 it had to its credit a collection of 3,000 manuscripts, and 142 publications in Sanskrit and 63 in Malayalam

The Travancore University (now the University of Kerala) immediately after its establishment organised a branch (1938) for the collection and preservation of old manuscripts After some time the Curator's Office (which was doing similar work) was transferred to the control of the University by the Government and was amalgamated with the University Manuscripts Library in 1940 Ever since this amalgamation steady progress was made in collection and publication

The need for a Descriptive Catalogue and an Alphabetical Index of the manuscripts in the Library was felt from the very beginning The former Curator's Office had prepared and published eight volumes of Descriptive Catalogue of Sanskrit manuscripts and three volumes of Descriptive Catalogue of Malayalam manuscripts After the formation of the University Manuscripts Library by the amalgamation of the Curator's Office and the University Manuscripts section an Alphabetical Index of the Malayalam manuscripts was published in 1951

The preparation of an Alphabetical Index of the Sanskrit manuscripts which formed the bulk of the collection, was started immediately after the issue of the Malayalam Alphabetical Index We are glad to issue the first volume of the Sanskrit Alphabetical Index in this form It is comprehensive enough and includes references to the Palace Library collection, the Curator's Office collection and the Madras Oriental Manuscripts Library collection of Sanskrit manuscripts This volume deals with 6079 works in Sanskrit and in arrangement according to the Devanāgari alphabet it extends from 'a' to 'n' (अ-ण) The succeeding volumes are in the press and will be published in due course

In the preparation and publication of this Index I have been assisted by Sri K S Mahadeva Sastri, (the former Curator,) Sri N Raghavan Nair, (Senior Pandit,) Sri N Parameswaran Nampiatiri and Sri K R Subramonia Sarma, Pandits of this Library

Sūranāḍ Kunjan Pillai,

THE SCHEME OF THE WORK

The scheme of the work is almost similar to that followed in the Alphabetical Index of Sanskrit Manuscripts in the Government Oriental Manuscripts Library, Madras. Every effort has been made to give the adequate information concerning each manuscript. In fact many details which are generally found only in the descriptive catalogues are incorporated in this Index.

The serial number in the first column shows the arrangement of the manuscripts in cataloguing and enables one to see the total number of manuscripts in our collection. In the next two columns the titles of the works with marks of identification in brackets such as व्याख्योपेत, केरळभाषोपेत etc. are given in the Sanskrit alphabetical order, in the Devanāgarī and Roman scripts. The name of the author of the work or of the commentary or both are noted in the next column. Where the author or commentator is not known mere dots are given in the respective rows. The subject of the work is given in the 5th column. For clarity, the works have been classified under different subjects such as Veda, Vedalakṣaṇa, Āgama, Mantra, Upaniṣat, Tantra, Purāṇa, Itihāsa, S'rauta, S'rautaprayoga, Gṛhya, Gṛhyaprayoga, Dharma, S'ānti, Māhātmya, Vrata, Bhakti, S'ikṣa, Vyākaraṇa, Nirukta, Cchandas, Jyotiṣa, Vaidya, Vedānta, Nyāya, Yoga, Mīmāṃsa, Kāvya (Prākṛta Kāvya, Campu Kāvya, Gadya Kāvya), Nāṭaka, Alaṅkāra, Nāṭyas'āstra, Kāmas'āstra, Nīti, S'ilpa, Gīta, Rasavāda, Kos'a, Jainamata, Stotra, Subhāṣita, Sāmudrika and Vividha.

In the next column the number of Granthas in each manuscript is given. The script, material and extent of the works are noted in the 7th column. We have in our collection manuscripts in various scripts – Devanāgarī, Nandināgarī, Malayalam, Tamil, Telugu, Grantha, Canarese and Bengali. The material of the manuscripts is either palm leaf or paper. There are many works which are incomplete, fragmentary or complete.

The remarks column gives details connected with the manuscript such as condition of the codex (whether old, worm-eaten or damaged), availability in other South Indian Libraries, date of copying the manuscript as found in the colophons etc., number of commentaries on the same work in our collection and the number of the work in the Descriptive Catalogue of Sanskrit or Malayalam manuscripts in this Library where more details of the work can be referred to easily. In the last column the number affixed to each manuscript in our collection is given which enables one to take out the manuscript from the library shelves.
